Professional Aerial, Ground & Mapping Solutions

Versatile Visuals, Industrial Strength

Drawing on hands-on industry experience since 2016 and officially established in 2018, PT. Kepri Digital Multimedia has grown into a premier visual documentation and aerial mapping agency.

While we are strategically based in Batam—the dynamic hub of the Riau Islands—our highly mobile team is fully equipped and ready to deploy anywhere to meet our clients' needs.

Built for Industry. Designed for Everything.

While our foundation is in the demanding marine, shipyard, oil & gas, and heavy manufacturing sectors, our versatile approach ensures that every project—from heavy industry to commercial real estate and ceremonies—is executed with the same level of professional excellence and uncompromising safety standards.

We also specialize in drone mapping and surveying, providing highly accurate topographic data, orthomosaic maps, and structural inspections that are crucial for industrial planning and property development.

Vision & Mission.

VISION

To be the leading and most trusted visual documentation and surveying partner for industrial and commercial sectors, recognized for our cinematic quality, uncompromising safety standards, precise mapping, and technological innovation.

MISSION

- **Deliver High-Impact Visuals:** To provide professional, high-resolution aerial and ground visual solutions for both heavy industries and commercial sectors.
- **Mapping & Surveying:** To leverage advanced drone technology for accurate topographic and industrial mapping.
- **Leverage Advanced Technology:** To consistently utilize cutting-edge camera and drone technology to capture the true scale, precision, and story of our clients' operations.
- **Exceed Expectations:** To offer versatile, reliable, and timely creative services that elevate our clients' branding and build trust with their stakeholders.
- **Prioritize Safety & Compliance:** To execute every operational mission with strict adherence to Health, Safety, and Environment (HSE) standards, ensuring safe, controlled, and risk-mitigated project execution across diverse industrial environments.

Our Core Focus.

Built for Industry. Designed for Everything.

We thrive in diverse environments. Whether navigating the complexities of a shipyard or capturing the elegance of a corporate ceremony, Kepri Digital delivers exceptional results across four core areas:

- **Maritime & Shipyard:** Showcasing the massive scale of shipbuilding, drydocking, vessel launches, and complex marine operations with cinematic precision.
- **Oil, Gas & Offshore:** Documenting offshore platforms, rig operations, and safety protocols. We operate with strict adherence to HSE.
- **Aerial Mapping & Surveying:** Providing high-accuracy orthomosaic mapping, surveys, and inspections using drone technology for industrial, land, and property development.
- **Manufacturing & Heavy Industry:** Highlighting dynamic industrial workflows, large-scale facility overviews, and intricate machinery details from comprehensive aerial and ground perspectives.
- **Commercial, Property & Events:** Translating your brand's story into compelling visuals. We cover corporate ceremonies, real estate walk-throughs, company profiles, and general commercial events with a creative and polished approach.

Our Services.

Visual Intelligence & Precision Spatial Solutions

We provide comprehensive photography and videography services, seamlessly combining dynamic ground footage with breathtaking aerial perspectives to deliver a complete visual package including data spatial.

Aerial Videography & Photography

- Industrial & Maritime Showcases: vessels, shipyards, and offshore rigs
- Progress Tracking documentation: Periodic, high-resolution aerial updates for construction and manufacturing sites.
- Commercial & Real Estate: Breathtaking aerial perspectives that elevate property portfolios and corporate branding.

Precision Drone Mapping & Surveying

- Orthomosaic & Topographic Mapping: Highly accurate 2D maps and elevation data for site planning and land development.
- 3D Modeling & Photogrammetry
- Close-Proximity Asset Inspections: Safe, high-definition visual data collection for hard-to-reach towers, structures, and flare stacks.

Ground & Handheld Visual Solutions

- Delivering smooth, highly stabilized cinematic ground footage for corporate profiling, HSE walk-throughs, and architectural documentation.
- Event & Ceremony Documentation: Discreet yet comprehensive coverage of your most important corporate milestones.

Post-Production & Creative Output

- Cinematic Video Editing & Color Grading
- Motion Graphics & Animation: Adding clear, professional visual overlays to explain complex industrial processes.
- Advanced Spatial Data Processing: Processing raw drone imagery into precise, measurable spatial models and maps.

Why Choose Us?

CERTIFIED & EXPERIENCED

Our aerial operations are led by fully licensed, highly skilled drone pilots.

We guarantee that every flight and ground mission is executed with technical mastery, strict regulatory compliance, safety and follows industry-standard operational procedures.

PROVEN INDUSTRY EXPERIENCE

Active in the field since 2016 and officially established in 2018, we bring years of hands-on experience.

We have a strong track record of successfully delivering projects for heavy industries, property developers, and corporate enterprises clients.

COMMITMENT TO QUALITY & DELIVERY

We understand that industrial environments and corporate milestones operate on unforgiving schedules.

Our streamlined workflow guarantees that you receive precise spatial data and cinematic visuals exactly when you need them most.

STRATEGIC BASE & GLOBAL MOBILITY

While strategically headquartered in the dynamic Riau Islands industrial hub, our operational agility extends far beyond. We offer rapid, flexible deployment, a deep understanding of complex industrial landscapes, and highly efficient turnaround times anywhere your project demands.
